PROFILE SUMMARY

Results-driven and self-taught **Full Stack Web Developer** with a strong foundation in **Web Development**. Experienced in designing and developing scalable, responsive, and user-centric web applications. Proficient in implementing **RESTful APIs**, **authentication & authorization**, **real-time communication**, and **payment gateways**. Passionate about solving real-world problems through clean and efficient code.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, ES6+, React.js, Next.js, Redux, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, Firebase, REST APIs / RESTFULL APIs

Tools & others : Data Structures & Algorithms, Git/GitHub, GitHub-Copilot, Cursor, ChatGPT, JWT, Stripe, Socket.io, Postman

PERSONAL PROJECTS

Full-Stack AI Powered Next.js Blog App ([blog.app.vercel](#) | [GitHub](#))

Developed a **AI Powered** blog application using **Next.js**, **Tailwind CSS**, and **MongoDB** with secure **JWT based user Authentication**.

- Enabled **authenticated users** to perform full **CRUD operations** (Create, Read, Update, Delete) on blogs and comments.
- Implemented **commenting system** with edit/delete access restricted to the comment's author, login user can also **likes** each other **comments**
- **AI Content Generation** – Auto-generate blog descriptions using Google **Gemini API** based on the title
- Image Upload with **ImageKit** – Upload blog thumbnails to **ImageKit** with **optimization**
- **Rich Text Editing** – Use of **Quill.js** for advanced **formatting** and blog writing experience.
- Built custom RESTful APIs using Next.js App Router with **server-side validation** and **error handling**
- Added **pagination**, **sorting**, **search** and **filtering on blog listings** for improved **user navigation** and **scalability**
- Designed fully **responsive**, **mobile-first** UI using **Tailwind CSS** and **Google Fonts** for a **modern** user experience

Full-Stack Look Ecommerce ([live.demo.video](#) | [look.vercel.app](#) | [GitHub](#))

Functional and responsive modern e-commerce website named Look, built with **React Express Nodejs MongoDB**.

- Developed and deployed a full-featured e-commerce application with secure **JWT-based user authentication** for signup, login, and logout functionality.
- Built a **role-based admin panel** enabling product and order management, including add, delete, update, and status change operations.
- Designed a **responsive and dynamic user interface** with **React.js** and **Tailwind CSS**, including product carousels and individual product detail pages.
- **Implemented cart functionality with CRUD operations, accessible only to authenticated users.**
- Developed advanced **filtering and sorting features** by category, sub-category, price range, and search by product name.
- Integrated **Stripe payment gateway** and **Cash on Delivery (COD)** options for checkout, with post-payment order tracking and redirection to the order summary page.

Full-Stack Real-Time Chat App ([live.demo.video](#) | [chat.app.vercel](#) | [GitHub](#))

Built a **real-time multi-user chat application** using **MongoDB, Express.js, React.js, Node.js**, and **Socket.io** for seamless two-way communication.

- Implemented JWT-based authentication for secure user registration, login, and logout with session persistence
- Designed a **mobile-responsive UI** with chat search, contact filtering, and chat initiation using **React and Tailwind**
- Enabled **real-time messaging** with support for text, images, videos, emojis, and live timestamps via **Socket.io**
- Developed **user profile CRUD functionality** with persistent storage and updates using **MongoDB and Mongoose**

EDUCATION

Bachelor of Computer Application

Makhanlal Chaturvedi National University, Bhopal

Self Taught

Google, YouTube, Udemy, ChatGPT, freeCodeCamp

Present
